Discussion

4. Russ Brooks from Public Works shared the project of transit hubs – which there are 4 throughout the city (more to come) and these spots are considered detailed “wayfinding” strategies. The concept is when you end one mode of public transportation there is another one immediately available. So, you get off the bus and can get on a nice ride bike. There is also signage and graphics that will show you where to go to maybe hop on the greenway with the bike you just rented, etc.

Action Taken: No action taken

5. Medaria Arradondo was unable to attend so staff gave a quick update on a few neighborhood organizations beginning to talk about a "citywide multi-cultural elders and seniors group". Until there is a specific “ask” of these folks to the city, there is no further action taken.

Action Taken: No action taken

6. Update on committee support for Trellis – Letter has been drafted and next steps is to connect to Trellis leadership to figure out if we “got it right” and to figure out next steps.

Action Taken: No action taken

7. Committee members report out/updates

Action Taken: No action taken
